Engineering Projects

Individual Projects

Personal Portfolio (HTML, CSS, Javascript)

2025-present

- Learned basic HTML to design and publish a personal website showcasing my projects and skills.

Rock-Finder Website (HTML, CSS, Javascript)

2025

- Challenged myself in html, css design, and JavaScript implementation to create a user look-up website.

Food and Location Website (HTML, CSS, Javascript)

2025

- Reviewed my basics in HTML, Javascript, and CSS to create a fun and personalized website for people to look through foods and where to find them.

Auburn University

Statistical File Analyzer (C++ and Java)

Jan - May 2025

- Created programs that read files and calculated mean, mode, and median

Loan Payment Calculator (C++)

Jan - May 2024

- Built a program that takes loan and payment info, then shows how long it takes to pay off

Book Finder (html, css, javascript)

February-May 2026

Chloe Jackson

- Built an app that helps users store their reading progress and books read on one website

Work Experience

IT Bio Med Technician, Birmingham, AL - Clinical Engineer Tech

June 2026 - August 2026

- Ensured smooth capsule system migration across 5 hospital sites during network changeover.

- Organized meetings for on-site and off-site coworkers for smaller projects needed.

- Learned hospital equipment on the spot and how each device connects to the network/works on a patient.

Telecounseling, Auburn, AL - Telecounselor

November 2025 - present

- Guide clients through career challenges with clarity and precision, helping them align their skills with opportunities.

Panera Bread, Alabaster, AL - Barista and Waitress
